

## THE BoardScoot – FOR USER-FRIENDLY AND SECURE NEEDLEBOARD HANDLING

As part of the Board Master System the BoardScoot – the user-friendly high-lift needleboard truck with mechanical needleboard pick-up – is the ideal complement to the NeedleMaster.

Removal, transport and positioning of the needleboards during needling are thus greatly simplified. Needleboard logistics as a whole benefit from improved efficiency.

## DATA, FACTS, BENEFITS

### Technical Data:

Dimensions in travel position:	1.030 x 620 x 1.980 mm
Weight:	ca. 100 kg
Needleboard length:	1,000 to 1,700 mm
Needleboard width:	100 to 400 mm

#### Features:

- Suitable for all conventional needleboard dimensions
- Safe removal and storage of needleboards from suitable wall shelves
- Needleboards are picked up and stored horizontally
- Safe transportation of needleboards from storage system to the NeedleMaster
- Safe and simple placement of needleboards into the NeedleMaster

#### Operation:

- Flexible and ergonomical electric operation
- Removal height can be freely selected, depending on shelf system
- Stepless adjustment of needleboard pick-up

#### Safety:

- Safe pick-up of needleboards
- Unobstructed view thanks to compact dimensions
- Simple and safe clamping of needleboards
- Ideal operator protection due to industrial-standard needleboard cover
- Optimal protection against unwanted movement thanks to parking brake

### Practical advantages:

#### Then – Manual handling

- Minimum of two people required for safe needleboard transport
- Cumbersome, since needle boards cannot be easily and safely gripped
- Needles entirely unprotected during needleboard transport
- Danger of injury from uncovered needle tips

#### Now – Handling with BoardScoop

- Significantly better and safer handling by one person
- Stable handling/fixing, thanks to special fixtures on the BoardScoop
- Needleboard can be safely and freely rotated in the special holder
- Safe removal of needleboards at up to two metres above ground
